

ATTENTION! – EDT PRESS RELEASE!

Get "smart" using EDT's new **SMARTFLUID®** LCD module technology!
A new technology developed, manufactured, and sold by EDT.

▶ **What does SMARTFLUID® LCD technology offer?**

- STANDARD -20 C to +70 C operating ranges.
- Combination of 6 o'clock and 12 o'clock view requirements. Effectively the LCD viewing cone has doubled.
- Excellent contrast from a variety of angles.
- Automatic contrast adjustment from a full -20 ~ +70 C temperature range.

▶ **What is EDT SMARTFLUID® and how is it created?**

In the fast-moving world of LCD technology, glass development engineers at EDT have harnessed cutting edge LCD fluid technology by using material science advances to achieve the results that **SMARTFLUID®** offers. This special process, which is proprietary to EDT, offers what is quite possibly the most technologically advanced monochrome LCD module in the world today.

▶ **What size modules is EDT SMARTFLUID® available in?**

All sizes up to 1/64 duty cycle. This incorporates all dot formats up to 240 x 64, excluding 128 x 128.

▶ **Does EDT's SMARTFLUID® LCD technology come at an added price or require electrical or mechanical changes?**

No! **SMARTFLUID®** is an expertise that EDT has developed internally, and uses standard industry materials. Our prices will remain among the most competitive in the monochrome LCD industry.

To see this "smart" new technology with your own eyes, contact your local EDT office!
